Professional Summary

Quality Assurance Engineer with 3+ years of experience in software testing, specializing in test automation using Playwright with JavaScript/TypeScript. Proven experience in designing, developing and maintaining end-to-end automation frameworks to enhance test coverage and improve regression efficiency. Experienced in Web testing, Mobile testing, API testing, cross-browser testing and CI/CD pipeline integration. Proficient in Selenium with Java, Docker and AWS for building and maintaining scalable and reliable test environments. Strong understanding of Agile methodologies, with a focus on delivering high-quality software through effective defect tracking, test strategy and collaboration with cross-functional teams.

Technical Skills

- **Test Automation:** Playwright, Selenium WebDriver
- **Programming Languages:** JavaScript, TypeScript, Java
- **Testing:** Web App Testing, Mobile App Testing, API Testing, Cross-Browser Testing, Functional Testing, Regression Testing, End-to-End (E2E) Testing
- **Frameworks:** Hybrid Framework, Page Object Model (POM), TestNG, Cucumber (BDD)
- **CI/CD & DevOps Tools:** Jenkins, GitHub Actions, Docker, AWS EC2
- **Version Control:** Git, GitHub, GitLab
- **Tools:** Postman, Jira, Visual Studio Code, IntelliJ IDEA
- **Methodology:** Agile Scrum

Professional Experience

IZMO Ltd - Quality Assurance Engineer**Oct 2025 - Mar 2026**

- Contributed to testing of Sales and CRM applications including Flauraud, DistrigoBoost and FrogData.
- Designed, developed and executed automated test scripts using Playwright (JavaScript) for end-to-end business workflows.
- Performed functional, regression and cross-browser testing to ensure application stability across multiple environments.
- Executed cross-browser and cross-device testing using LambdaTest (web and mobile platforms).
- Validated RESTful APIs using Postman by verifying response data, status codes and business logic.
- Identified, logged and tracked defects using Jira, ensuring timely resolution and retesting.
- Collaborated with developers and product owners in Agile Scrum ceremonies to ensure quality deliverables.

CormSquare - Software Test Engineer**Aug 2022 - Sep 2025**

- Led a team of 5 QA engineers, providing technical guidance and ensuring high-quality test deliverables.
- Designed and implemented a scalable end-to-end automation framework from scratch using Playwright, Selenium, Java and TestNG.
- Developed and executed automated and manual test cases for web applications, improving test coverage and efficiency.
- Integrated automation suites with CI/CD pipelines using GitHub Actions and Jenkins, enabling continuous testing.
- Utilized Dockerized Selenium Grid and AWS EC2 for scalable and reliable test execution environments.
- Performed functional, regression, API and integration testing to ensure application reliability.
- Managed source code using GitHub and collaborated closely with cross-functional teams.
- Logged, tracked and managed defects using Jira across multiple releases.

- Actively participated in Agile Scrum ceremonies including sprint planning, stand-ups and retrospectives.

CAP Digisoft Solutions - Document Analyst

Sep 2019 - Jul 2022

- Performed document processing, formatting, mail merging and spell checking for multiple document templates.
- Managed deadlines efficiently while maintaining high accuracy and quality standards.

Education

Bachelor of Science in Electronics and Communication Systems (B.Sc.) - 2019

RVS College of Arts and Science

Higher Secondary Certificate (HSC) - Computer Science - 2016

Ramnagar Matriculation Higher Secondary School

Secondary School Leaving Certificate (SSLC) - 2014

Kalaimagal Matriculation Higher Secondary School

Domain Knowledge & Projects

Sales & CRM Applications - IZMO Ltd

- Sales and CRM platforms used to manage customer lifecycle, sales operations, lead management and reporting.
- Supported workflows including lead creation, opportunity tracking, customer data management and analytics.
- Performed functional, regression, automation and API testing for web and mobile applications to ensure data accuracy, system stability and business continuity.

E-Procurement Application (P2P) - CormSquare

- End-to-end Procure-to-Pay (P2P) platform connecting end users and suppliers.
- Automated procurement workflows including purchase requisitions, purchase orders, invoice processing and payments.
- Executed functional, integration, regression and API testing to validate business rules, data flow and system integrations.

Certifications

Certified Software Tester - Manual & Automation

Refinement Software Solutions Pvt Ltd

MCP Servers & Automation for Testers

ShiftSync

Mentorship & Volunteering

CormSquare

- Mentored junior QA engineers through structured and informal sessions, providing guidance on testing concepts, automation practices and best practices.
- Supported mentees in troubleshooting issues, improving test case design and understanding automation frameworks.
- Conducted regular knowledge-sharing sessions and provided feedback to enhance team productivity and skill development.
